Newsletter Term 4 - Week 2

Thursday 24th October 2019

A Note from the Principal...

Term 4 is here and it is going to be a busy one. Please ensure you regularly check our Facebook page to keep up with what is happening.

The final transition day for Maclean High School will take place next Wednesday. The day will include the usual activities plus a BBQ for the students. Please return your notes ASAP. While transition to high school is exciting it can also be a challenging time for some students. Included in this week's newsletter is some information to help parents to support their children at this stage of their schooling. Please take the time to read it especially if you have a child in Year 6.

Our P&C meeting will be held on Monday Week 3 in the 3-6 room at 5.30pm. Everyone is welcome.

I will be away at the State Principal's Conference for 3 days next week and at State Athletics for 3 days the following week. During this time Mrs Cowie will be taking my class.

Our excursions are set down for week 6. Please return notes and payment to the office.

Weeks 7 and 8 will be our whole school intensive swimming program.

The Brushgrove Hotel have kindly offered the school the opportunity to do some fundraising on Melbourne Cup day. If there are any parents that could help out with this on the day it would be greatly appreciated.

As it gets hotter please ensure students all bring their hats to school, clearly marked with their names.

I would like to remind parents and carers that if your child is absent from school, please notify the office by writing a note, sending an email or calling the school.

Sue Magarry - Principal

Education

Responsible Pet Ownership Program Thursday 14th November

The Program is delivered to schools throughout NSW. It targets children and teaches them how to live safely with dogs. A team of trained pet educators and their suitability-tested dogs present the Program at schools across NSW. The presentations are delivered using chat, role play, story and song. Australia has one of the highest rates of pet ownership in the world. Most dog attacks involve children in the 0-8 age range and a high number of these attacks also occur in the home environment where children are bitten by their own dog or one known to them. Educating children and their families ensures the child-pet relationship is not only physically and emotionally rewarding but also a safe one as well.

**Very soon
the Responsible Pet Education Program
is coming to visit you at your school!**

My pet dog will be coming to help teach you how to be safe around dogs and how to say hello to dog with their owners!

There will be lots of listening, role plays, singing and some dancing.

My dog may even meet you during the visit.
